

## **Voting Integrity Advocates,**

A couple of us have come up with a plan for Election Day. Our idea is very simple, but we believe it will be very effective, and best of all, it includes you... the disenfranchised voter.

Pursuant to 21-2-412, there is to be at least one judge of each CIRCUIT on duty the day of the election from 7 AM until at least 10 PM (there are 49 Circuits). Their duties for that one day are:

**... to secure a free, fair, and correct computation and canvass of votes cast at such primary or election. During such period the court shall issue process, if necessary, to enforce and secure compliance with the primary or election laws and shall decide such other matters pertaining to the primary or election as may be necessary to carry out the intent of this chapter.**

With that statutory remedy in mind, we have come up with a pleading which we believe will force a judge to allow ballots to be printed by the Dominion Ballot Marking Devices, but will force a judge to enjoin the use of machine counting devices and order the hand counting of all ballots in Georgia for this November 8<sup>th</sup>, 2022 elections.

We have started the process of uploading the necessary documents to a website so that if anyone wishing to participate in this effort, will have ready access to the pleadings and other documents necessary to effectively carry out this effort state wide. Feel free to forward this notice and the weblinks to other likeminded souls.

All anyone will have to do is download the documents, read them so you know what you are attesting too, and fill-in the necessary blanks in the pleading (there are only 5) with all the named Exhibits are attached – a total of 8 pages. Once you have filled in the few blanks for each Circuit's own jurisdiction along with their information, and take it to the judge, in chambers or in open court who should order the clerk to file it (without a filing fee we believe).

At any rate, J. Gregory Howard (the other conspirator) and I shall be on a conference call at 6 PM Wednesday evening to provide a detailed overview of the process, the rules of practice and procedure, the URL location of the files to download and print, and provide an overview of potential problems

that may arise (given that poll workers are not that well trained in the Law). That should not take more than 15-20 minutes, but we have reserved an hour in case some of you have questions. Also, we will be simultaneously live streaming on Facebook, Rumble and thru a few other podcasters for your convenience.

So, if you know anyone who would like to ENFORCE their right to a free and fair election, please let all your friends, family, and neighbors know that the time has arrived for Americans, yearning to be free, to stand up and throw off the chains of political slavery from our shoulders. As the old African proverb goes, “Walk softly and carry a big stick. You will go far.”

We do not need to boast or make verbal threats for folks to be aware of our power and resolve; we just need to wield the “big stick” of the Rule of Law in a civilized manner, and seek out only those who are willing to serve us, not themselves.

Hope to see you Wednesday, 6 PM.

Paul Nally
