A Georgia Senate Sub-committee was formed to examine the 2020 election. The report was issued by Senator William Ligon (former judge for 16 years) in Brunswick, GA (ref 01)

Finding #9 stated *“The oral testimonies of witnesses on December 3, 2020, and subsequently, the written testimonies submitted by many others, **provide ample evidence that the 2020 Georgia General Election was so compromised by systemic irregularities and voter fraud that it should not be certified.**”* (ref 01)

Coovert interviewed Senator Ligon and asked, “what did the SoS do about the facts in your report, he stated, *“He (SoS) did nothing”*. (§16-08-2, § 45-11-1, § 45-10-1, § 45-3-11)

On December 22, 2020, (just 5 days after the Ligon Senate Report was issued)

SoS office press release was issued, *“Georgia Secretary of State Brad Raffensperger is coordinating a whole of government effort to combat illegal voting in Georgia...”*

“The Office of the Secretary of State has already launched over 250 investigations into credible elections concerns this year and begun a signature audit in Cobb County”. (ref 7)

RE: Point by Point Refutation of False Claims about Georgia Elections

For God and Country

WHO WOULD LIE TO CONGRESS?

know that the results are accurate. That is why I ordered a hand audit, a recount, a signature audit in Cobb County, and a statewide signature study in conjunction with the University of Georgia. The facts show that the claims asserted by the President and his allies about the voting machines used in Georgia are false. The facts show that the claims that the 2020 election did not follow Georgia law on absentee ballots are false. The claims that the election was not transparent or that monitors did not have the access to which they were entitled are false. The claims that there are a sufficient number of illegal voters to put the result of the Presidential contest in question are false. You have already accepted the results of the November 3, 2020 election in Georgia for your own seats and those of your colleagues. I respectfully request that, after you review this evidence, you do the same for the presidential electors who were validly elected by the people of Georgia. We do not have to like the results of an election to accept them. Thank you for your consideration and your continued service to our country.

Sincerely,

Brad Raffensperger

Statements from Raffensperger in his Letter to Congress January 6, 2021

“I respectfully request that you enter this letter into the Congressional Record. Once these refutations are considered, I am confident that Georgia's validly elected electors will be accepted.” (ref 08)

In reference to the Dominion voting machines. *“We further know these allegations are false because our office engaged a federally certified voting systems test...”*

“Pro V&V conducted an audit of a random sample of Dominion Voting Systems voting machines throughout the state using forensic techniques, including equipment from Cobb, Douglas, Floyd, Morgan, Paulding, and Spalding Counties.” (ref 08)

42 Lies to the U. S. Congress

On January 6, 2021, just two weeks after *coordinating a whole of government effort*. Secretary Raffensperger sent a letter to the United States Congress and then Vice-president Pence. In the 10 page document Secretary Raffensperger told the U.S. Congress, *“that no fraud or irregularities occurred at all in Georgia.”* This document was not made public for months. (ref 8)

ABSTRACT

GARLAND FAVORITO / BOB COOVERT
February 8, 2022 - Edited February 10, 2022

ONE OF MANY ALLEGATIONS INVOLVING DOMINION VOTING SYSTEMS

- *“A third-party conducted an audit of voting machines in Ware County, Georgia and had found that the machines "flipped" votes from Trump to Biden at a rate of 28%. Not a single part of that rumor was true.”*
- Certified Ware County election results from the SOS office reported that Trump received 9865 votes, Biden received 4211 votes and Jorgenson received 136 votes in the 2020 General election. Published audit results for Ware County confirmed that Donald Trump actually received 9902 votes, Biden received 4174 votes and Jo Jorgenson received 117 votes.
- Brad Raffensperger’s False Election Claims
- The hand count audit revealed the Dominion voting system recorded 37 more votes for Biden and 37 less votes for Donald Trump than the actual, verifiable audit totals.
- The rate is about .25% or almost exactly the victory margin rate that Joe Biden received over Donald Trump. The SOS office admitted in a press release that the audit found 37 more votes for Donald Trump than the voting system originally reported but did not acknowledge that the audit found that the system originally attributed those 37 extra votes to Joe Biden.

NOTHING TO SEE HERE

For God and Country

“In Georgia, we were able to show that none of these allegations are true because we completed a 100% hand audit of all ballots cast in the presidential contest.”

Fulton County Presidential audit contained

- A 60% batch error rate;
- 7 falsified tally sheets with 850 to 0 Biden votes;
- Over 200 duplicate scanned ballots;
- Over 4,000 duplicate reported ballots among other problems.
- Furthermore, tally sheets for over 50,000 Fulton and Cobb. Co. ballots were added to the audit roughly two months after it was conducted.

THE AUDIT THAT NEVER HAPPENED

For God and Country

Floyd County – No audit via phone call and ORR with election supervisor 9/12/22.

Douglas County – No audit via email election supervisor ORR 9/07/22.

Paulding County – No audit via email election supervisor ORR 9/07/22.

Cobb County – No audit via email from Cobb County ORR and FOIA Moncla.

Spalding County – No audit via phone call with election supervisor 9/12/22.

Morgan County – email from M. Barnes from the SoS office 11/13/2020

Mr. Coovert:

Thank you for your request. Paulding County has no emails or responsive documents pertaining to your requests. We did not have an audit of the machines following the November 2020 election. We have no communications with the SOS, Dominion or PRO V&V.

Please consider your request fulfilled.

Further evidence a Pro V&V audit did not take place in Georgia. The Georgia report does not identify where the audits took place. The Georgia audit report does not list the audited machines serial numbers or seal numbers which is imperative in order to ensure the machines were not tampered with and allows the machines to be traceable. The Georgia audit report does not list the software verification serial and seal numbers to ensure proper software and no tampering. Tables from the Pro V&V report for Maricopa County, Arizona clearly identifying the actual machines, software, and seals.

Why is the Pro V&V Audit So Important

For God and Country

- Per State Law, every election in Georgia using the Dominion machines could be made invalid. See Moncla / Cross to State Election Board.
- Designed to persuade VP Pence and members of Congress there was no fraud in Georgia.
- The audit was used to convince Georgia citizens of the same.
- Law makers in Georgia used the audit in making decisions to changes to election laws and whether to continue the use of Dominion machines.
- The audit was used in convincing the Georgia Inspector General Scott McAfee there was no wrong doing with the Secretary of State, his office, and Pro V&V.
- Judges have used the audit in legal cases.

Dear Inspector General McAfee,

We, The Mountain Patriots, are formally requesting that case OIG File No. 22-0023-I is reopened or a new investigation is conducted. Additional information and evidence have been identified which establishes a case for fraud committed by the Secretary of State of Georgia and members of his office.

As I'm about to prove: 1. Dominion Voting Systems voting machines audit did not occur as described by the Secretary of State Raffensperger. Five of the six counties identified by the Secretary of State confirmed that no audit occurred in their county. 2. This same evidence proves that the Georgia audit report was fabricated for the Secretary of State by Pro V&V. 3. A series of fraudulent actions were taken by the Elections Assistance Commission (EAC) to fictitiously illustrate Pro V&V's accreditation. These are the reasons Secretary of State Raffensperger needs to be investigated.

February 27, 2021 The board considered 75 cases during its third meeting of the month, sending dozens of them to the attorney general or local district attorneys for prosecution. In acting on more than 300 cases in February, the board demonstrated its intolerance for violations that impact the integrity of elections.

September 11th, 2020

(Atlanta) – The State Election Board on Wednesday referred 35 cases of election-law violations to the attorney general or local district attorneys for criminal prosecution.

“Election fraud is not tolerated in Georgia. When there is evidence of it, the people responsible face prosecution,” said Secretary of State Brad Raffensperger, chairman of the five-member board. “Georgia has multiple safeguards in place that allow our team of investigators to discover fraudulent voting. They worked to catch the wrongdoing in these cases, and they maintain the security of Georgia elections.”

ATLANTA (WALB) - The Georgia State Election Board on Wednesday referred 35 cases of election-law violations to the attorney general or local district attorneys for criminal prosecution.

"Election fraud is not tolerated in Georgia. When there is evidence of it, the people responsible face prosecution," said Secretary of State Brad Raffensperger, chairman of the five-member board. "Georgia has multiple safeguards in place that allow our team of investigators to discover fraudulent voting. They worked to catch the wrongdoing in these cases, and they maintain the security of Georgia elections."

The Secretary of State's Office investigation division has 23 sworn officers with arrest power and vast experience as detectives in law enforcement. They impartially investigate allegations of voting irregularities and present their findings to the board, which can levy fines, issue a letter of instruction or refer the case for prosecution, according to Raffensperger's office.

Among the cases bound over for prosecution Wednesday were four incidents of felons voting or registering to vote, four cases of non-citizens voting or registering to vote and one case of misplaced ballots during the 2020 general election, which didn't change the outcome but did affect the total.

A member of the Secretary of State's office (Fuchs) secretly recorded a phone call with President Trump, they created a public record per Georgia Code § 45-11-1 - Offenses Involving Public Records, Documents, and Other Items. When they altered the recording, they violated §45-11-1, when they attempted to destroy the recording, they again violated § 45-11-1. Per Georgia code §45-11-1, two felonies were committed by the Secretary of State's Office, one in altering the recorded public record and another in destroying it. This recording was identified in the trash on a Secretary of State computer and forwarded on as a public record following a FOIA.

Adam Schiff: ([01:29:56](#))

And Mr. Secretary, as I understand it, your office took several steps to ensure the accuracy of the vote count in Georgia, reviewing the vote count in at least three different ways. These steps included a **machine recount, a forensic audit and a full hand recount** of every one of the 5 million ballots cast. Did these efforts, including a recount of literally every ballot cast in the State of Georgia confirmed the result?

Secretary Raffensperger: ([01:30:20](#))

Yes they did. We counted the ballots where the first tabulation would be scanned. Then when we did our 100% hand audit of the entire all 5 million ballots in the State of Georgia, all cast in place, all absentee ballots, they were all hand recounted and they came remarkably close to the first count. And then upon the election being certified, President Trump, because he was in within half percent, excuse me, could ask for a recount. And then we recounted them again through the scanners and we got, remarkably, the same count. **Three counts, all remarkably close, which showed that President Trump did come up short.**
